

LET US MAKE THE IMPACT TOGETHER

About Us

Bayakko International Foundation (BIF), is proudly an offshoot of Bayakko LLC, headquartered in the United States of America. We are an international foundation focused on building the well-being of our world. Our objective is to promote and fund global environmental, social impact projects and solve humanitarian problems.

Our work thrives on grants, funding, and support for and from partners across North America, Asia, Europe, and Africa who have a deep understanding of our projects and strengths. At the same time, we continue to grow our representative partnerships in various locations to help us build and strengthen our relationships with communities, international organizations, and governments.

Vision

To upgrade communities across the world through sustainable projects and investments toward socio-economic prosperity now and for future generations.

Values

The core values of the Bayakko Foundation include integrity, accountability, and empowerment.

OUR KEY PEOPLE

The Board of Trustees and Officers of the Foundation are sourced from unique backgrounds, knowledge, and experienced and highly profiled personalities. They hail and work from various countries continents, and across the world. They have extensive experience in the worlds of higher education, business, law, government, technology, health care, nonprofit management, etc.

CORE PROGRAM AREAS:

Humanitarian aid - programs for the supply of essential goods (services) in the event of natural disasters, and to reduce vulnerability to natural disasters and disasters in the future. Humanitarian aid, food security projects, construction of humanitarian buildings and structures, payment for essential goods, materials, and goods (services) in natural disasters, goods, and services.

Social programs - Programs to improve the lives of citizens, assistance in critical situations, financial assistance, affordable housing, youth development, and education, amongst others.

The Foundation Outreach Program provides support for the most effective social issues to achieve visible change, in collaboration with local communities. Implementation of educational projects in partnership with leading non-profit organizations. State social programs and socio-participation in economic modernization.

Environmental programs -.The Environment Program is planned; to protect and improve the environment, industrial enterprises' flora and fauna are affected by climate change and environmental pollution. Protect fauna, create an aviation firefighting squadron, create a naval fleet to clean the seas and water bodies, green in big cities energy projects, and ecology improvement projects.
